## U. F. A. Members Discuss Politics

Members of the U. F. A. from East and West Calgary constituency met in Calgary last Wednesday for their annual conference.

Mrs. S. J. Ewing, Irticiana, was re-elected president, and Mr. Scutcher, Irticiana, secretary, of the East Calgary Association.

Addresses were given by J. T. Shaw, M. P. for West Calgary, H. W. Wood, and others.

"Although Alberta Progressives have been 'riddled up the back' by eastern newspapers regarding their stand at the recent caucus at Winnipeg, in connection with the economic group form of organization, we are not worrying at all about the matter," declared S. J. Ewing, re-elected president of the East Calgary U. F. A. District Association, when that organization met in the Hood and Irvine Hall on Wednesday morning for their annual conference.

Nominally the East and West Calgary Associations meet in joint conference when discussing general matters, such as resolutions to be presented at the annual meeting of the U. F. A., but for the purpose of electing officers and other detail work they meet separately.

At the joint conference, after routine had been dispensed with, and an address heard from the U. F. A., the East Calgary section proceeded to its own special business.

### Was Predominant.

It was after Mr. Ewing had been re-elected that he referred to the position taken by the Alberta Progressives.

"You cannot change the people's mind when they know they are on the right track," he remarked, "and no matter if the eastern provinces do not see eye to eye with the ideas that prevail in Alberta in regard to economic group government, we hope they will some day. As a matter of fact, at the present time in Ontario the thought

of group government has become predominant," he said, "and there is certainly hope that the Progressives there will adopt the same plan eventually."

### Convention.

Hon. George Hoadley, Minister of Agriculture, who returned at the end of a five week from the convention of Municipal Districts in Calgary, referred to the statement made in the convention that there would be no legislation for seed grain relief during the coming session. "I emphasized to the convention when considered as to the policy of the government in this matter, that the government was merely the administrator for the state, and that it was the state's money, the people's money, that had been spent on seed grain relief, and that the government had decided against passing the credits of the people further in this matter."

The Dominion government has reserved a million bushels of seed oats and fifty thousand bushels of seed barley, but those who want this seed must be ready to purchase it themselves.

Mr. Hoadley also told the convention that the domestic animal act would be re-drafted and put in such shape that all the clauses applying to municipalities would be put together in one portion of the act. He also explained that permission to hold round-ups in unorganized territories must be secured from the minister of agriculture under conditions of the act, but that in organized municipalities, the councils had the right to conduct round-ups without any reference to the minister.

Hon. Alex. Ross, minister of public works, also a visitor to the convention spoke in reference to the reorganization of the highways branch, saying that he believed now that the road work in the province was being organized on such a basis that the appointment of an independent highway commission would not be necessary. He repeated his opposition to the establishment of such a commission. The report of the executive committee of the convention on its dealings with Mr. Ross on the matter was adopted by the convention as being satisfactory.

L. A. FIELD  
Carceland :: Alberta.

Local Items  
Briefly Told

Carceland was well represented at the masquerade dance at the Palace Friday night. They thoroughly enjoyed the evening. First prize for costume was awarded to George Wilkes, and Grace Wilson. Their costumes were those of Indian Chief and queen. The whootawaw still decorates the top of the pump house. Although the pump was drawn up last Saturday, it was taken not to change its position. Fred was surely out of luck and will have to make the climb himself if he wants it down.

The Board of Trade met twice this week. The main discussion was whether or not to provide a tank and heater for the pump house for watering stock. A ballot was taken resulting in the deciding not to go in this respect until finances are improved. Mrs. Wilson and children have been visiting in Glendon.

Bob Woodrow is still laid up with a severe attack of the flu. Most of the turkey flock which have been decorating the town have been removed to a safer place. Although the owners' suspicions are not warranted, the writer of this column deems it safe to say that any who may have designs on the remaining birds to have a heart.

Mrs. L. S. Cutler gave birth to a fine boy on Wednesday last.

Contributions of news items to this column will be gratefully received at the Drug Store or telephone Mr. Laurie, R707. Circulation in Carceland has increased already by about 15. If all will do their share in subscribing and supplying news items a first-class paper can be promised.

Mr. Myers has been listening to the Seven some and as a result is seriously considering purchasing land in Florida near to Bob Woodrow place.

Mr. Harper is another who is planning to escape the cold weather and move southward.

POLLY  
GIVES GOOD  
ADVICE

Polly is a clever parrot;  
His advice is always good;  
Ask him anything you want  
to—  
He can answer if he would.  
Though he often speaks abruptly,  
He is never cross or surly.  
So he says, and says emphatic,  
"BUY YOUR CHRISTMAS  
PRESENTS EARLY."

Carling prices  
A very satisfactory and largely anticipated meeting of the members of the Carling Club was held in the Town Hall last Wednesday.

The members decided to appoint a ship and draw for raffle for the upcoming season which is to be known as the "Franklin's side" versus the "Vancouver side" (check names) and as the two teams are so when the first committee will then have an idea of the various members play after which raffle for the season will be held on the 10th inst. as the committee is so prepared.

The curling rink together with the hockey rink present a very fine appearance and are the cause of much favorable comment from visitors, and are a credit to the citizens of the town.

Thanks are due to those who have so willingly assisted in the erection of these buildings, particularly when we remember that a lot of this volunteer effort came from those who are not skaters and non curlers.

The curling club has still room for a few more members and the Sec. Treas. or any member will be glad to receive membership.

The following is the draw for the temporary rink.

## Even Handed Justice

From the Old Country comes the news that Sir Almeric Filmy, Clerk to the Privy Council, has been fined \$5 and costs for annoying women in Hyde Park. He has intimated an appeal, and it is possible that he has been convicted in error, but the point is that it shows how even the highest officials over in England are amenable to the law. He was arrested in Hyde Park by a couple of policemen, and brought before the Police Court in the ordinary way.

In Calgary, and even in Strathmore, it has happened occasionally that offenders against the criminal statutes have got off by appearing under assumed names, or the case being dropped through influence, but the example set in the Old Land is one that could be followed more closely. Justice is not justice unless it is even handed.

St. John, New Brunswick.—Three thousand Mennonites are expected to arrive here shortly on one of the Canadian Pacific steamships from Colono. They are all farmers and will proceed to Saskatchewan on arrival, where they have made arrangements to make up farming. They are to come as ordinary immigrants with no special privileges and are said to be equipped financially to settle down in farming.

## THE SEARCH PARTY

(On the subject of lost children a contemporary suggests that "the whole party should sing cheerful songs to guide the little wanderer back to safety.")

My word, 'was a tragic occasion that day we missed little Jim. Our mercurial suffered invasion. From anxious forebodings and grim: We dragged every ditch without brightening.

To light any trace of his track, Till at last we remembered that shining light wheeled the wanderer back.

Forgetting his manysprays And the anger they used to excite, We warbled in unison, "Where is Our wandering boy tonight," "Look Lomond" and many another Decadently rose on the air: John yodelled "Tom howling," and another

Muttered "The Pride of Kilbride." Our lungs to their utmost throat. Were strained in a series of clogs. Wherein we were seldom together. And always in different keys: But we found little Jim at the station. Where a constable, doming our din. A threat to the peace of the nation. Had finally gathered us in.— "Punch" London.

## LETTER TO THE EDITOR

Strathmore, October 23, 1922.

Editor Standard:

Sir: Those who attended the lecture on "Cancer" by Dr. Gibson, and the members of the Board of Trade and the privilege of listening to a recital of the facts as known to our sons relating to that fatal affliction of the human body.

An interesting incident at the meeting was due to the remarks of Mr. Stockton, of the C. P. R. Natural Resources Department.

Dr. Gibson, one of Calgary's leading surgeons, recently returned from an extended course as a student of the most approved methods in England, supporting his statements by quotations from the leading surgeons of the world, has told us among other things, that the cause of cancer was unknown or to speak more definitely that the cause might be one of three, each having its own advocate.

It is generally concluded that science, with its exact information has occupied the stage for the past fifty years, and today is the age of philosophy. Everywhere men are applying a common sense philosophy of their own, in an endeavor to make life harmonize with the pretension that they are the apex of the creation of the ages.

Mr. Stockton had a philosophy with respect to cancer as well as other diseases, and modestly told the meeting and the lecturer that the cause was to be found in the fact that we violate nature's laws of health more particularly with respect to food, and paid the penalty for that violation.

It was pleasing to me to see a leading citizen voice his opinion, push the scientist with his technical explanations into the discard, and stand by his convictions, even though it is said to say, no one in the hall would have been quite so positive about it.

That is a good illustration of the former position. We have listened to the exponent of production of diseases on the cause and cure of our poverty; we have listened to the financier on the soundness of our banking and credit system as fundamental to our success; we have listened to traffic experts, tariff experts, immigration ex-

perts, and we are just about ready to especially listen down all into the heaven reserved for pontificators and proceed with a philosophy of our own. We may be wrong, but the Mr. Stockton, we are quite positive that our success is waiting a gun and it expects are unable to effect a rescue we shall lack a hand ourselves. We may not off a leg when the cancer is in the joint but the patient has endured much in the past from Boards of Trade and others who have supplied.

M. EUGENE SLAY.

Vancouver, B.C.—The Canadian Pacific Railway Company has called for tenders for the construction of a new bridge across the Columbia River to replace the old one washed away during the heavy floods of November. The new structure, which will be built of steel, is to be about 300 feet long with concrete piers. The concrete abutments will be placed further apart than in the former structure to make room allowance for another possible swelling of the river. The new aqueduct bridge, when completed, will be one of the most substantial examples of bridge construction on the Canadian Pacific Railway.

Montreal.—Mr. G. D. Brophy is a passenger agent of the Canadian Pacific Railway, at Regina, Saskatchewan, succeeding Mr. A. McDonald, transferred, according to an official circular. Mr. Brophy entered the service of the Canadian Pacific on October 19th, 1910, as clerk in the Passenger Department. New York. Promotions following were: Sept. 19th, clerk Passenger, Dept. Montreal; May, 1919, Passenger Agent on line "Michigan" April, 1918, travelling passenger agent Cleveland; June, 1917, travelling passenger agent New York; July, 1916, returned to Canada and travelling passenger agent January, 1915, travelling passenger agent Montreal; June, 1915, travelling passenger agent Montreal; Oct. 1914, travelling passenger agent Montreal; Oct. 1913, district passenger agent, Banff.

Edmonton, Alberta.—In giving evidence before a Government Committee investigating the practical question, L. G. Huntly, ex expert from Pittsburgh, declared that he knew of no post war boom for the Government reports estimate the production of this field at 5,000,000 feet per day.

## Memorial Hall Receives Dominion Publicity

The Strathmore War Memorial Hall is the subject of an interesting article in "The Veteran" published in Ottawa and which has a large Dominion-wide circulation. A cut of the hall is inserted on the same page and the article is very complimentary to the efforts of Strathmore and district, citizens and veterans.

Following is a reproduction of the article, the material for which was supplied "The Veteran" by Mr. Peter Nisimith, present secretary of the branch:

**STRATHMORE'S SPLENDID WAR MEMORIAL HALL AT COST OF \$17,000  
One of Finest in the West**

The Strathmore branch of the G. W. V. A. and its accomplishment during its short existence might be held up as a shining example to our average western rural community of what can be attained by any similar organization provided with a definite objective and a few hard-working members, plentifully endowed with that great British quality sometimes known as "stiff-neckedness." This branch first came into existence early in 1919 under the guidance of Comrades John Mackenzie, president, and J. Vakk, secretary. The organization flourished during the year 1919, and it became obvious that we must have some kind of a home where we could hold our meetings and socials. With this idea in mind, it was finally decided to launch a campaign to erect a building which would be a memorial to those of the town and district who made the supreme sacrifice, and which, at the same time could be utilized as a community hall, which the town was much in need of, and also as a clubroom for the Association.

The scheme was first launched in the fall of 1919, and, according to our plans then, the amount required was approximately \$15,000. With this objective in view a canvass was started

and as much of the district as possible was covered before the year-end, the sum of approximately \$2000 in cash and promises being secured. During 1919 and 1920, the crops in this district were not good, and it was the spring of 1921 before any further steps were taken to raise the remainder of the amount.

Early in 1921, final plans were drawn up by Mr. Charles Hay, architect, of Calgary, and the branch decided to collect all outstanding promises with the funds available. Accordingly the contract was let to Mr. M. S. Hilde, of Strathmore, and the turning of the first sod, attended by both the members of the assembly hall was held, on May 21st, 1921. Less than two months later, the exterior of the building was complete, and the hardwood floor of the assembly hall was laid, so that the building could be used, and on Sunday, July 17th, a dedication service was held, and the opening ceremonies were held, and the members of the 19th, the building was officially opened to the public. At the opening ceremonies we were favored with the assistance of Miss General H. P. McDonald, of Calgary, and Miss Agnes Laup, the noted Canadian authoress. July 19th having been declared a public holiday, a "Sports program" basketball tournament and dance in the evening were arranged by the Association, the proceeds of which swelled the building fund appreciably.

While the building was in process of erection, no opportunity of raising money was allowed to pass, so that when the snow began to fly our fund stood in the vicinity of \$10,000. This amount included substantial donations from the town of Strathmore and the local municipality of Bow Valley. One public-spirited citizen donated a motor car of uncertain age, which, when ruffed off, netted us the handsome sum of \$1,200 has been received in rentals and almost \$2,000 has been raised by means of entertainments, dances, etc.

We have been successful in obtaining loans amounting to \$3,500 from two local citizens on first and second mortgages, and at this time, less than eighteen months since the turning of the first sod, the building stands completed, a war memorial of which many a larger community might well feel proud of, as well as a great public utility to the people of Strathmore and district.

These splendid results have not been secured without much hard, and often-times discouraging work, but we feel satisfied that the returned men and their families will reap the benefit in later years, and the G. W. V. A. will long be perpetuated as a force for good in this community.

The total amount expended on the building and contents is \$17,000, and our assets may be summarized as follows:

Building	\$12,000.00
Delco-Light Plant	1,200.00
Furnaces	\$200.00
Chairs	200.00
Crockery	100.00
Piano	750.00
Total	\$14,250.00

We owe much of our success to the G. W. V. A. Ladies' Auxiliary, which has a large membership here. The plans were donated by them and the help which they have given in various ways in making our enterprise a success cannot be estimated.

There is recommendation for every five hundred people in the main hall and the gallery. Probably the most successful event so far was the Dominion Christmas during the first week in January during which the building was packed to the doors every afternoon and evening. Moving pictures are shown once a week, and the hall on an average is used probably twice to fifteen nights each month.

Comrades Douglas French held the office of president during 1920 and 1921. Comrade H. H. Forward was secretary during the first half of 1920 and was succeeded by Comrade P. C. Nisimith, who will hold that position. Comrade Robert Gardner has been resident during 1922. Comrades French, Mackenzie, Conn, Patterson, VanTichem and Yonke, with the president and secretary form the hall and finance committee.

An interested visitor to the Department of Agriculture at Edmonton, the next week was D. N. Burdett of the Bureau Agricultural Bureau in the city of New York, who is traveling through Canada gathering information regarding farming conditions and farming methods for the government of

## Your Gift Shop Is Marshall's

A Few Sensible Suggestions for Christmas Gifts

### WHITE IVORY GIFTS

White Ivory is paramount among Christmas Gifts. In this beautiful material many ideas are provided, suitable, adaptable and appreciable for novelty, utility or merely pleasure. We carry a excellent line of WHITE IVORY GIFTS for men, women and children. Single pieces or complete sets. Beautiful, rich, ivory-like material that could easily be engraved. Do not fail to place these articles on your gift list for the most satisfactory response and appreciation.

### A Wonderful Gift In A Handsome Box CANDY FOR CHRISTMAS

Candy is the gift that is universally appreciated and therefore invariably demanded. Candy occupies a place that no other gift possibly can or ever will. There never was a gift like candy and there never was candy any better than ours. Early choice gives best selection of the newest and handsomest 1922 Christmas packages and if we say they are beautiful a look will prove it. The finest of gifts, complete in every point of attraction outside and in. All size boxes. Orders for Christmas candies should be placed now.

### GIFTS Specially For TINY TOTS

Gifts of toys or playthings you may want to give to babies, and they will be highly delighted with them. Do not forget that a baby is capable of appreciating articles of useful value as well as otherwise. A nice toilet equipment is a good suggestion. Some little toy, even a can of talcum or a cake of soap or candy in novelty shapes.

### PLENTY OF TOYS

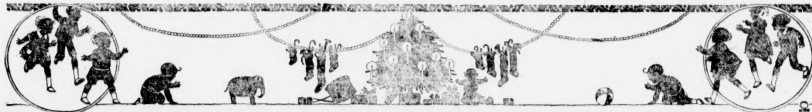

#### SEE AND SELECT

Make it a toy Christmas and make it a happy Christmas for youngsters. We are showing toys for boys and girls, mechanical toys, wooden toys, building blocks, construction toys, dolls and ever so many things. A very special department that requires special attention on your part if you want to make the youngster's Christmas happy and contented.

### BOXED PAPERS

When all other thoughts fail, stationery answers the gift problem. Remember stationery and you will remember a gift to get that is satisfactory to everybody. You will express your appreciation of the fine line of stationery we are now showing. We will appreciate any opportunity to show them to you. For everyday use and for gift purposes you are not going to beat them no matter where you go. Papers in small boxes and large plain and conservative styles and the newest tints and textures.

### Railway News

Mr. Edward Everett Beck, who since the death of Mr. Macdonald has been acting manager of the Vancouver Island Railway, has been appointed manager. Mr. Beck has been connected with this line ever since he entered the service in 1907, first as clerk, then as revenue clerk, and since June 16th, 1910, as assistant manager.

Calgary—For the first time in two years the car department at the Canadian Pacific Union Shops worked full time. This was the official announcement made at the offices of the general superintendent of the Alberta Division. The department mentioned is one of the largest at the shops and will effect carpenters, car repairers and helpers. It is stated that the heavy movement of grain is the cause of the increased work. The announcement has been received with much satisfaction by the men concerned.

Edmonton—Three years in the St. Vincent de Paul penitentiary was the sentence on Joseph Cantore, of the township of Lingwick, for placing a bomb and a spike on the Canadian Pacific Railway track. The sentence was handed by Judge H. Leamy, in the District Magistrate's court, after the defendant had pleaded guilty to the charge. The plaintiff, who was the owner of the property, was awarded a sum of \$1000, and the defendant was ordered to pay the costs of the trial. The plaintiff also asked for a summary judgment, but Judge Leamy, on account of the plaintiff's failure to produce evidence, refused to grant it. The defendant was also ordered to pay the costs of the trial.

The court continued upon the reference of the offence after the defendant had been sentenced. The defendant was also ordered to pay the costs of the trial.

Edmonton—There is so much wheat in some parts of Southern Saskatchewan that it will take until next summer to get it shipped out of the country, said J. H. Chown, general manager of the C.P.R. in this district last night.

Mr. Chown made this statement upon his return from a trip over the southern line of the Canadian Pacific, the trip including the Arcola line as far south as Stoughton, through to Weyburn as far west as Assiniboia and thence up the Sasqui River to Moose Jaw.

"The wheat crop in some of the districts in this area is better than 1915," said Mr. Chown, under way some remarkable yields are being demonstrated. Where the crop is so good, the yields are running close up to 50 bushels to the acre.

"At Vantage," continued Mr. Chown, "I looked up to a threshing outfit operating not far from the station and engaged the thrasher in operation. He told me the field he was threshing was running at 50 bushels to the acre. The grain was uniform, well ripened, a good color and an excellent sample of wheat in every respect."

Edmonton—A good harvest and the existence of a plentiful supply of foodstuffs in all parts of Canada is the basis upon which C. E. E. Under, general passenger traffic manager of the Canadian Pacific Railway, with headquarters in Edmonton, makes the encouraging prediction that business is bound to show considerable improvement during the next few months and upon to reach the level of the best of previous times.

Mr. Under was a visitor in Edmonton in the course of a tour which took him as far west as Vancouver.

Passenger traffic business is a worthy barometer in the setting of general business conditions, and Mr. Under announced that the year, from a passenger traffic point of view, has been an excellent one, while it is felt certain that the coming winter and spring will see still further increases. Tourist travel during the past season has been almost as good as it ever was, while restrictions made for winter travel, including ocean cruises, are exceptionally numerous at this time.

Then, again, traffic to and from the old country during the past few months has taxed accommodation to capacity, while thousands plying between the west coast and the Orient have been doing great business. Mr. Under is a strong advocate for an open door policy of immigration in Canada, and in response upon the topical subject he declared that there would come a time before many months had passed when Canada would be setting up a cry for labor.

Fort William—Ontario: Several thousand bushmen will be required by the lumber manufacturers of Ontario west of the Great Lakes this winter, according to the Employment Service of Canada. Several hundred men are being sent to these camps each week and the demand is becoming more and more insistent. Depletion of stocks during the past summer, owing to heavy building demands in Eastern Canada and the United States is responsible for the camps being put back on full strength.
